

Hello from the AMSA Spring Riding Challenge Team,

The Alberta Mounted Shooters Association (AMSA) is excited to host our **third annual Spring Riding Challenge**, running from **March to May 2026**. This province-wide event brings together riders from all disciplines across Alberta, Canada, and even the U.S.—all united by a shared goal: to build community, stay motivated, and get out riding.

To help make this challenge a success, we are reaching out to local businesses for support. We are kindly requesting **donations such as gift cards, products, or services** to be awarded as prizes throughout the event. Your contribution directly supports participant engagement and helps us celebrate riders of every level.

In appreciation of your generosity, AMSA will provide:

- Recognition of your business on the **AMSA website**
- Promotion on our **social media platforms** throughout March–May
- Inclusion of your **logo or business name** in event marketing materials and our program

We welcome contributions of any size, and truly appreciate your willingness to support local riders and Alberta's equestrian community.

In previous years, participants have won fantastic prizes such as: Tail Bags from Alliance Equine, gift cards from Mr. Mike's, Tim Hortons, Greenhawk and others, Power Silver Gel from Silver Vet, along with many other generous donations.

AMSA is a volunteer-driven, non-profit organization dedicated to promoting the sport of mounted shooting and supporting riders of all ages and experience levels. Your support helps us continue offering motivating, community-focused opportunities like the Spring Riding Challenge.

If you are interested in contributing or have any questions, please feel free to reach out. We are happy to arrange a pick-up for your donation if needed.

Thank you for considering this opportunity to support local riders and be part of a growing, vibrant community event. Your time and generosity mean so much to us.

Sincerely,

Alberta Mounted Shooters Association - Spring Riding Challenge Team
